General Information

- The rating plate on each individual piece of equipment will help in determining required wattage/ampereage.
- 100 Watts = 1 Amp.
- 1500W duplex = standard receptacle as found wall mounted at home. Combined output of both receptacles is 1500W which is equivalent to 12 Amps; 15 Amp Quad = four outlets with a total load that can be connected of 1800W; 750W = basic power for a TV, Laptop, small appliance, etc.
- Please refer to the Electrical Usage Guide included in the Premium List to help determine the type of power needed.
- Please pick up your pre-paid marker at the Show Secretary's table when you arrive at the Show. This marker will allow the Electrician to identify you as paid and allow the connection.
- Sharing power: While a fellow exhibitor may share the cost of your service and connect to your power, care **must** be taken to ensure the circuit is not overloaded. The cost to reinstate service is significant and if a Freeman representative is called, these costs will be the responsibility of the individual(s) and not the Ottawa Kennel Club.
- The Discount Price, plus taxes, is applicable up to closing on October 23/12. Any applications received post-closing date will be charged the Standard Price, plus taxes.

To obtain the discounted price payment must be received by: **October 23, 2012.**
